01 · ABOUT OKHAI PHARMA

Precision, safety & *innovation in nicotine chemistry*

Okhai Pharma Intermediates Pvt. Ltd. is an eminent manufacturer, exporter and supplier of pure nicotine and nicotine derivatives. Backed by deep expertise in nicotine chemistry, we craft pharmaceutical-grade products under stringent quality controls and regulatory compliance — using premium raw materials in advanced facilities. Our products support drug development, toxicology studies and scientific research, with high purity, solubility and stability, eco-conscious manufacturing and global export capability.

02 · OUR PRODUCTS

Three grades. *One standard.*

01

Nicotine Sulphate 40%

High-purity, water-soluble, with 40% active nicotine. Trusted for smoking-cessation aids, transdermal patches and research into pharmacology, receptor interactions and neuroscience.

40% nicotine | Water-soluble | Stable & reproducible

02

Nicotine Alkaloid 90% / 95%

The most abundant and potent alkaloid of *Nicotiana tabacum* — the building block of advanced nicotine products. The 95% grade is tailored for API use.

90% & 95% | 25 kg · 5 kg packs

03

Pure Nicotine 99.5% USP/EP

Pharmacopeia-grade pure nicotine for pharmaceutical formulation — our highest-purity offering.

CAS 54-11-5 | $C_{10}H_{14}N_2$ | 5 kg · 1 kg packs

GRADE	STRENGTH	BEST SUITED FOR
Nicotine Sulphate	40% nicotine	Cessation aids, transdermal patches, research
Nicotine Alkaloid	90% · 95%	Advanced nicotine products; 95% for API use
Pure Nicotine	99.5% USP/EP	Pharmaceutical formulation

HPLC & GC ANALYSIS

03 · QUALITY CONTROL

Quality you can trust, *batch after batch*

01 **FDA-approved facility** with proprietary purification processes.

02 **HPLC & GC chromatographs** verify purity and potency of every batch.

03 **Near-zero foreign residues** and the lowest possible impurity profile.

CONTROLLED-ENVIRONMENT MANUFACTURING

Purity is protected at every step. From premium raw materials through proprietary purification to final analysis, production is run under tightly controlled conditions — keeping foreign residues near zero and every batch consistent.

1. PREMIUM RAW MATERIALS
2. PROPRIETARY PURIFICATION
3. HPLC & GC ANALYSIS
4. PACKED FOR EXPORT

04 · MISSION, VISION & REACH

MISSION

To manufacture and supply high-purity nicotine and its derivatives with a focus on quality, safety and environmental responsibility — through innovation, skilled expertise and ethical practices.

VISION

To deliver world-class nicotine derivatives that support advancements in healthcare and science, and to build lasting partnerships that exceed expectations.

WHO WE SERVE

- Drug development
- Toxicology studies
- Scientific research
- Cessation aids & patches

05 · LEADERSHIP

Guided by *experience & integrity*

Mr. Parth Visana

DIRECTOR

Graduate in Food Processing & Technology — A.D. Patel Institute of Technology

An experienced businessman with 6+ years in raw-material supply to the cement industry and treated hazardous chemical waste. Strategic long-term planning and financial literacy are his strengths. Founder-partner of Neja Associates & Neja Healthcare Hospitals LLP.

Mr. Lakhamanbhai Bhimabhai Odedra

DIRECTOR

Bachelor of Arts

A seasoned businessman and authorised transporter for Saurashtra Cement Ltd, known for deep-rooted planning, management skill and leadership. He drives day-to-day plant operations at Okhai Pharma.

OUR COMMITMENT

Two leaders, one promise — quality, safety and environmental responsibility in every batch we ship.

Quality | **Safety** | **Environment**

06 · CONTACT US

Why partner with *Okhai Pharma?*

- **Pharmaceutical-grade purity.** Developed under stringent quality controls.
- **Every batch tested.** HPLC and GC verification you can rely on.
- **Global reach.** Export capability and responsive service.
- **Responsible production.** Eco-conscious, safety-first manufacturing.
